Important Information.

It is important that you read the following information before you fill in the Statement/Wishes form. For a more detailed and legal explanation of this document, please see the links on page 21.

An Advance Statement/Directive is made when you are well, so that if you are admitted to hospital as a voluntary patient, become incapacitated, or are Sectioned under the Mental Health Act, your doctors, care co-ordinators, relatives and friends can work together to make sure your wishes and needs are met. This will help your recovery or to manage a continuing MH problem.

Once you have filled it in, it is important that you have it witnessed by two people in the section provided, because this will ensure it is legally binding. It is advisable to use a solicitor.

*******

You should note that an Advance Statement/Wishes document is not as legally binding as an Advance Directive, and you cannot insist on receiving or not receiving certain treatments with an ASW. However your doctor and care team will try to meet your requests. This is because your doctor can override your Advance Statement/Wishes under certain emergency circumstances under the Mental Health Act 1983.

At the end of the document you will find details and a link to where you may find an Advance Directive form regarding medical care, non-resuscitation and end of life treatment.

ADVANCE DIRECTIVES

You may wish to consider what you would like to be done if you are seriously ill, wish to refuse medication or are facing the end of your life and want to make an Advance Directive. Much of the information you have put in the Advance Statement / Wishes will be very useful, but you will need to consider and answer more serious questions, so please ask the hospital for the following document:

‘Planning for Your Future Care’, Devon, Plymouth and Torbay NHS
www.devon.gov.uk/d_0903_004_139223_v4_a4_low_res2.pdf

An Advance Directive must be followed legally and medically unless you have been sectioned under the Mental Health Act 1983, which can override both types of directive, except for ECT treatment.
WITNESSES

It is important that you have this document witnessed by two people once you have filled it in. Your witnesses do not have to know the details you have put down, but they do need to see you sign and date it. Witnesses must not be related to you, or be people who might be beneficiaries in your Will.

Address ………………………………………………………………………...
……………………………………………………………………...
……………………………………… Post code
Phone ………………….…  Date …………………….

Witness 2:

Remember that you can change your mind about any of your Advance Statement requests at any time. Just make sure you have updated the section for this at the back on page19.
